

Salvequick fabric (textile) XL adhesive bandage (plaster) - Réf. 3652

General description

- Adhesive fabric bandages of two sizes, Small and Big, packed in a cardboard refill.
- The refill fits into the Cederroth (Salvequick) dispenser for adhesive bandages.
- The adhesive bandage consists of a fabric backing, evenly spread with an adhesive coating.
- An absorbent pad is fixed centrally to the dressing. The adhesive is covered with a release-coated foil that consists of two parts partly overlapping each other. When taking the adhesive bandage out from the package, the release-coated plastic foil will remain behind. One half of the dressing can now be applied on the skin using one hand only. Then the rest of the coated paper can be removed and the adhesive bandage is ready for use.

Intended use

- The adhesive bandages are intended to be used as a mechanical barrier and for absorption of exudates from minor wounds.
